

INSTRUMENTATION

YOKOGAWA 

Temperature/Pressure/Flow Measurement,
Tunable Diode Laser, Gas and Liquid Analyzers,
DCS Systems, Data Acquisition, recorders
Controllers, Process Gas Chromatographs

GENERAL MONITORS
Protection for life.

Gas Detectors, Flame Detectors,
Wet Well/Odor Monitors, Customized
Gas Sampling Systems

Plug Valves, Butterfly Valves, Rotary Control Valves,
Knife Gate Valves, Ported Gate Valves, Consistency
Transmitters, Actuators, Accessories, APCO Valves

Tubing bundles, Instrument Enclosures,
Instrument Supports

Advanced Level and Flow Controls,
Guided Wave Radar, Ultrasonic Level

Process Control Valves, Sanitary Control
Valves, High Flow Regulators, Tank Pressure/
Vacuum Vents, Flame Arrestors

Terminal Blocks, Marking and Labeling,
Cables and Connectors, Power Supplies,
Installation and Mounting Material

Industrial Communication Systems,
Industrial Controls, Radio Controls

Safety Valves, Pilot-Operated
Safety Valves

Oil, Water & Gas Separators
Filtration Cartridges

GE
Measurement & Control

GE Panametrics and GE Druck products

Hygrometers, Dewpoint
Transmitters—local, remote, or
portable

Precision engineered water
control solutions

Cable & Hose Management,
Mobile Electrification

Pressure Switches, Temperature
Switches

Valtek process control valves for all industrial
applications

AUTOMATION

GE Automation Automation and Controls Software and PAC Controllers offer best-in-class control, data collection, visualization, and analysis solutions for industrial applications.

Plant Applications is an asset to both the plant floor and the executive offices—optimizing and integrating site-to-enterprise operations.

GE Digital's Intelligent Platforms products include:

- ⇒ Cimplicity®
- ⇒ iFIX®
- ⇒ Historian®
- ⇒ Plant Applications: Process Efficiency, Quality and Production Management
- ⇒ Plant Applications OEE®
- ⇒ iPower®
- ⇒ Workflow®
- ⇒ Dream Reports®
- ⇒ Machine Edition®
- ⇒ Quick Panel Graphical Touch Screen OIT®
- ⇒ PAC Controllers: RX3i, RX7i, RXi
- ⇒ PLCs: 90-30, 90-70

MDS is a world leading single-source, end-to-end wireless solution provider. From wellhead monitoring to utility substation automation, our wireless devices are packaged for industrial environments and have been rated and tested to harsh industrial specifications. Our wireless networks carry serial and IP/Ethernet traffic, plus analog and digital I/O signals connected directly to field devices and sensors, accommodating an extensive array of industrial protocols.

Industrial PC Solutions: Panel Computers, Industrial Displays, Industrial, Micro, Embedded Computing, Rackmount Systems, Computing, Thin Client terminals

Industrial Network Security aimed at large-scale industrial and enterprise networks.

Nematron is the Industry Leader in Fanless Industrial PC's, Embedded Industrial PC's and Displays, Flat Monitor Panels and Operator Interfaces and HMI Panels.

Stratus' solutions enable rapid deployment of always-on infrastructures, from enterprise servers to clouds, without any changes to your applications. Our products – combined with our people and services enable us to prevent downtime before it occurs and ensure uninterrupted 24 x 7 x 365 performance of essential business operations.

A Picture is worth a thousand data points. IVC's rugged video camera's and video management software enable you to integrate your CCTV and SCADA system to enhance safety, operators response time and productivity.

KEPServerEX is a powerful platform for communication and data exchange between equipment. OPC Server, and drivers for DNP 3.0, Modbus RTU Serial, Modbus Ethernet, Modbus ASCII, BACnet/IP Driver, and more.

Industrial Networking Equipment: Wired and Wireless Switches, POE, Media Converters, Wireless Access Points
