

INSTRUMENTATION

Temperature/Pressure/Flow Measurement,
 Tunable Diode Laser, Gas and Liquid Analyzers,
 DCS Systems, Data Acquisition, recorders
 Controllers, Process Gas Chromatographs

GENERAL MONITORS
Protection for life.

Gas Detectors, Flame Detectors,
 Wet Well/Odor Monitors, Customized
 Gas Sampling Systems

Intrinsic Safety, Fieldbus Solutions, Purge &
 Pressurization, Level Measurement,
 Graphical Interfaces, Corrosion Monitoring

Process Control Valves, Sanitary Control
 Valves, High Flow Regulators, Tank Pressure/
 Vacuum Vents, Flame Arrestors

Level Controls, Flow Controls, and Bulk
 Solid Volume Controls, Open Air Radar/
 Ultrasonic, Guided Wave Radar, Orion
 MLI's, RF Capacitance Transmitters, Level
 and Float Switches

Plug Valves, Butterfly Valves, Rotary Control
 Valves, Knife Gate Valves, Ported Gate Valves,
 Consistency Transmitters, Actuators,
 Accessories, APCO Valves

Tubing bundles, Instrument Enclosures,
 Instrument Supports

Engineered for life

Pressure Switches, Temperature
 Switches

Safety Valves, Pilot-Operated
 Safety Valves

Valtek process control valves for all industrial
 applications

THERMAL MANAGEMENT

Leak Detection, Sensing Cables,
 Alarm Modules

Hygrometers, Dewpoint
 Transmitters—local, remote, or
 portable

GE
 Measurement & Control

Panametrics flow meters for
 industrial and municipal
 control

Engineered water control solutions

AUTOMATION

GE Intelligent Platforms Automation Software and PAC Controllers offer best-in-class control, data collection, visualization, and analysis solutions for industrial applications.

Plant Applications is an asset to both the plant floor and the executive offices—optimizing and integrating site-to-enterprise operations.

The Intelligent Platforms products include:

- ⇒ Cimplicity®
- ⇒ iFIX®
- ⇒ Historian®
- ⇒ Plant Applications: Process Efficiency, Quality and Production Management
- ⇒ Plant Applications OEE®
- ⇒ iPower®
- ⇒ Workflow®
- ⇒ Dream Reports®
- ⇒ Machine Edition®
- ⇒ Quick Panel Graphical Touch Screen OIT®
- ⇒ PAC Controllers: RX3i, RX7i, RXi
- ⇒ PLCs: 90-30, 90-70

Industrial PC Solutions: Panel Computers, Industrial Displays, Industrial, Micro, Embedded Computing, Rackmount Systems, Computing, Thin Client terminals

Industrial Network Security aimed at large-scale industrial and enterprise networks.

KEPServerEX is a powerful platform for communication and data exchange between equipment. OPC Server, and drivers for DNP 3.0, Modbus RTU Serial, Modbus Ethernet, Modbus ASCII, BACnet/IP Driver, and more.

Industrial Networking Equipment: Wired and Wireless Switches, POE, Media Converters, Wireless Access Points

Din-rail mount 1-Phase and 3-Phase Power Supplies, DC/DC Converters, Buffer Modules, DC-UPS's, Diode- and Redundancy Modules

HMI Products, Process Controls, Panel Meters, Sensors, Protocol converters, and KPI displays

XLReporter automated reporting and data analysis software for production and management. Design, schedule, analyze data, and distribute reports to your team. Includes database blocks for iFix software.

Win 911 and Mobile 911: World leader in remote notfcaton Remote configuration capable: Remote programming, configuration and diagnostics - built for rugged conditions.

We help you:

Automate. Measure.

Visualize. Control.

Collect. Analyze. Learn.

IMPROVE YOUR PROCESS.
