

# Emerson's Automation Technologies & Solutions Products & Software Portfolio

## Programmable Automation Control Systems (PLC/PAC)

Emerson's high-performance PAC systems connect to the industrial internet to drive smarter and more efficient outcomes.

PACSystems™ RX3i  
CPE400 and CPL410

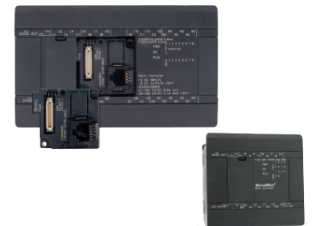

PACSystems™ RX3i  
Controllers

PACSystems™  
RSTi-EP Controllers

VersaMax™ Micro

## Industrial I/O

Emerson's industrial I/O provides a flexible and reliable solution for best-in-class connectivity and continuous uptime.

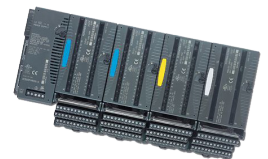

PACSystems™ RX3i IO

PACSystems™ RSTi-EP

VersaMax Modular IO

## Human Machine Interfaces

Emerson's rugged, flexible HMIs offer a smarter way to visualize data and gain key insights.

QuickPanel+

Movicon WebHMI

## PACSystems Servo Solutions

Improve your machine's performance and efficiency with a high-speed, integrated motion control system.

PACMotion VFD

PACMotion High Speed Servo Drive

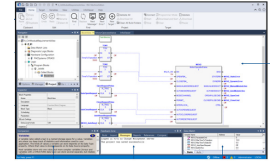

## Automation & Control Software

Control and software solutions that deliver enhanced operations and production flexibility.

Movicon

PAC Machine Edition Professional Development Suite

## Industrial Computing

Customizable industrial computers offer durability, reliability, and a secure connection to the industrial internet.

Industrial PC (IPC)

Panel PCs

Industrial Monitors

Industrial Web Panels

## Industrial Power Solutions

SolaHD offers you the power quality solutions you need to run your machines safely and efficiently.

SolaHD™ SDN-D

SolaHD™ SDN-C

SolaHD™ SVL

SolaHD™ SBE

SolaHD™ SCP-X

SolaHD™ UPS System
